before they got to my property line. They picked up about 40 or so taps on the road I live on. They went on up the main road which is Rt 7 and run the water line out another dead in road longer than the road I live on for only 12 taps and part of them are dry taps which is not suppose to be allowed. I feel like this is discrimination and they are misusing federal money. I have went to water meetings to try to work things out but they give me no satisfaction. They said they would run the water line 500 ft. per tap take it or leave it. If you could send someone to look at the problem I believe you would see how they have done me and some more of my neighbors that live on above me. Your help would be deeply appreciated.

Wherefore, complainant asks To Run the water line to

which is about the same. I do not believe this
is asking for to much, thank you
